COOLED TRANSPORTED SEMEN CONTRACT

Registered Name of Mare: _____

Breed and Registration #: _____

1. I hereby agree on this _____ day of _____, 2010 to breed the above mentioned mare using cooled transported semen to the stallion **Jax Fed Ex, Registration #2803445** during the 2010 breeding season at a stud fee of \$ 850 + GST. This fee will consist of a \$200 non-refundable booking fee payable upon receipt of the contract and remaining \$ 650 + GST must be paid in full before cooled semen will be shipped.
Make these cheques payable to Ryan Smith.
2. It is understood that should the above-mentioned stallion die, or become unfit for service, this contract shall become null and void. All breeding expenses incurred are still payable to Equine Services Ltd.
3. Any fees noted herein are in Canadian funds, and are *non-refundable*.
4. There is a live foal guarantee with one return breeding privilege the following season, if the mare does not produce a live foal that is capable of standing and nursing. It is understood that any claim for re-breeding must be accompanied by a written statement from a veterinarian within one week of knowing the mare has lost her foal. In the event that the mare dies or becomes infertile, the breeders will be allowed to substitute another mare (at the discretion of the stallion owner) for breeding the following season.

5. Equine Services Ltd. will charge a deposit of \$650 (cheque payable to Equine Services Ltd.) that must accompany this contract. (This is in addition to the booking fee.) There will be a charge of \$220 plus GST for each time semen is collected and processed for shipping. All costs related to processing the semen plus charges for shipping semen (including shipping container, couriers, airlines, bus, etc.) will be deducted from this deposit. Any remaining balance will be returned after confirmation of your mare being pregnant or at the end of the breeding season. No semen will be shipped without adequate funds on deposit to cover expenses. If a mare does not conceive, loses the pregnancy or loses the foal during or after foaling, all services provided by Equine Services Ltd. on a return service will be charged at the current rate for the next breeding season.
6. It is required that Equine Services Ltd. be notified when the mare is expected to be in heat and again prior to 4:30 PM (MST) the day before a shipment is likely to be required. Confirmation of the semen order must be made by 8:30 AM (MST) the day of the shipment. Specific arrangements are required for each shipment and therefore it would be appreciated if Equine Services Ltd. could be informed of expected shipping dates as far in advance as possible to assist in making these arrangements.
7. Every effort will be made to ship quality semen, however, if for any reason the semen is of poor quality upon arrival, the Stallion owners or their representatives will not be held liable.
8. The mare owner agrees that if the mare does not conceive during the 2010 breeding season, they will have a choice of either substituting another mare (at the discretion of the stallion owner) or receiving a return breeding the following season. If a return breeding is chosen, the mare owner will bring the mare to Equine Services Ltd. during the 2011 breeding season. A contract for a return breeding must be signed and the mare owner must abide to all charges associated with breeding a mare at Equine Services Ltd. If the mare owner does not choose a return breeding during the 2011 breeding season, they will forfeit the return breeding privileges and the stud fee paid on the above mentioned mare.
9. Both parties agree to follow Breed Association rules regarding the shipment of cooled semen.
10. A "Breeder's Certificate" will be issued upon notification of the birth of the foal.
Contact Ryan Smith at 403-897-3787 or email at championauctions@gmail.com.
11. **A current copy of the mare's registration papers (front & back) must be included with this contract.**
